

RAYMOND SCHOOL FOR YOUNG LADIES.

I WILL open the first session of my school, now known as the School in Raymond, on the 22nd of SEPTEMBER next. The liberal arrangement which has been extended to me during the scholastic year just closed, stimulates me to use my best endeavors to make my school both efficient and permanent.

Terms in English Branches, four, five and six months per annum, according to advancement.

Latin, French, Drawing and Fancy Work, \$8 per month each.

Musics on Piano, or Guitar, \$6.00 per month; \$7.00 per month of instrument in piano.

Horseback riding at \$10 per month, either in the Institute, or in neighboring societies, *au plaisir*. — MRS. R. BOWEN.

FOREST HALL,

MARION, ALABAMA.

ON the 1st of October, 1866, I will open in this place a private, select school for GIRLS, offering unusual advantages for a liberal education. The buildings are elegant and commodious; the grounds extensive and well improved. The school is fully furnished with libraries, Apparatus, and every desirable article of school equipment. There are advanced scholars—young ladies who are fitted for school studies previous to entering society. There are live Professors and Teachers of experience and most approved skill.

As the number of pupils is limited to 30, or when so full, board at the Hall. Early application will probably be necessary to secure admission.

For a Circular containing full information and for a definite statement of terms, address

While it must not be expected that young Ladies can be educated in a first-class College without considerable expense, yet it is claimed that the cost of tuition in this College is less than in similar Institutions, and they are so because the buildings have been erected by public contribution at a cost of about \$25,000, for which neither rent, interest nor tax is paid.

Young Ladies, graduates in this or other Institutions, will become more thorough in the literature of Music, Drawing, etc., and to learn the art of teaching, will be received here, where under a Charter from the State, the highest academic honors can be conferred on females.

The high reputation of Mr. BELL, his strict attainments, his clear teaching, his gravity of manner and his known reputation as a governor of Young Ladies, together with the eminent qualifications of Mrs. Bell as a teacher and governess, justify the Board in asking a liberal patronage for this Institution.

Boarding Department.

Is in charge of Rev. W. W. McMAHON AND LADY. Those who know them need not be told that neatness, order, comfort and kindnesseminently distinguish their department. It is like a home for Young Ladies. The teachers reside and board in the College.

Dress and Economy.

Young Ladies offer opportunity to excel each other in dress. To avoid this, and partly as a matter of economy, uniformity of dress is being gradually introduced, except for those desiring to wear black.

Prints trimmed with pink for summer, with red or crimson for winter. Nothing but ribbon.

Pink Calico and lawn for summer; dark Calico and dark brown Worsted for winter. All extravagance is positively forbidden.

Religious Training.

Young Ladies attend Church and Sunday School. Daily reading of the scriptures, Prayer and Instruction and Practice in Sacred Music, accompanied by a Melodeon.
